

# AXRY 260 - NGS - SBI - PRR50 - H1\* - H2 - AC - JXXXX - L120

**Construction series**

**Bore in mm**

**Bearing type**

**Lubrication connection:**

Without= only on outer ring  
SBI= additionally on inner ring

**Accuracy requirements:**

Without = Standard  
PRR50 = Axial and radial runout tolerances restricted  
PRR30\*\* = Axial and radial runout tolerances high precision

**Connection dimension H1:**

(\*only for sizes 580 and 650)  
Without = Standard  
H1= Restricted connection dimension H1

**Connection dimension H2:**

Without = Standard  
H2 = Restricted connection dimension H2

**Bearing alignment:**

Without = Standard  
AC = Customized alignment

**Regulation:**

Without = Standard  
JXXXX = Customized regulation  
(number is issued by myonic)

**Lubrication:**

Without = Standard grease  
L120 = Bearing ungreased, only preserved  
(e.g. for oil lubrication)  
GXXX = Special grease  
(number is issued by myonic)

\*\*available for bore 260-650 mm
